**OTHER BUSINESS**

The public was given the opportunity to bring other specific business or non-agenda items before the board for comment and/or discussion.

**UNFINISHED BUSINESS**

**Review Estimate for NDC Evaluation:** Thorburn explained that NDNR would like to cost-share with TBNRD on a study of additional NDC Augmentation well sites, but because of constraints on time, suggested an independent contractor. The suggested contractor wasn't available, so another contractor was contacted and will provide a bid.

**Presentation on CNPPID Groundwater “Mound” Study, Dave Ford:** Tyler Thulin from CNPPID gave a presentation on CNPPID’s groundwater study. CNPPID is expecting the study to be completed in approximately six months. TBNRD hasn’t contributed to the study.

**NARD REPORT**

**NARD Legislative Conference:** Winz and Reynolds are in Washington DC for conference. NARD established an NRD Conservation Hall of Fame and candidates are being considered. NARD is taking nominations for recipients.

**COMMITTEE REPORTS**

**Planning Committee:** Thorburn reviewed planning committee recommendations concerning the Groundwater Management Rules and Regulations. Prior to the last hearing, NDNR and NDEQ suggested changes to the rules, but the hearing process had already been started, so the board decided to approve the current draft of the rules and regulations and consider the changes suggested by NDNR (an exception that differentiates between commercial, industrial, environmental and non-irrigation agricultural uses) and NDEQ (identify and define environmental water use and 80 lb. single application of nitrogen application in Phase III) at a later date. Changes were also suggested by an agronomist about using nitrogen as a carrier for pesticide. The committee recommended all but two of the changes. The committee recommended that the board discuss 3.5.3 (concerning nitrogen application) and 10.2.2.2 (concerning changes to certified acre certification process). There was discussion about limiting nitrogen in Phase III areas by sandy soil types (high leaching) or date of application. Thorburn suggested the board could approve the proposed changes (except for 3.5.3 and 10.2.2.2) and agree to hold a hearing but not set a date for the hearing. That would allow for further discussion of 3.5.3 and 10.2.2.2. Garrelts suggested reviewing the changes in context of the entire draft.

Moved by Johnson, seconded by Bergstrom to accept the Planning Committee recommendation to accept the proposed changes to the Groundwater Management Rules and Regulations except for Sections 3.5.3 and 10.2.2.2, which should be discussed further by the board. Motion carried.

Moved by Raffety, seconded by Olsen to reword Groundwater Management Rule 3.5.3 to read “producers shall not apply more than 80 lbs. of any nitrogen in a single application at any time before emergence of the crop on field where more than 50 percent of the aerial extent consists of high leaching soils.” Motion tabled.

Lundeen suggested Ray Ward talk to the board about nitrogen application. Nickel suggested the Groundwater Management Plan should be changed before the rules and regulations so both documents are the same.

## TRI-BASIN NRD BOARD MINUTES

March 12, 2013

There was discussion about rule 10.2.2.2. , which wouldn't allow corrections for certified irrigated acres to be moved to another parcel for ten years after the correction was approved. The potential effects of the limitation were discussed including accounting for corrected acres and the effect on actual versus certified acres. There was discussion about allowing landowners to correct acres for a year and then not allow any corrections. Fahrenbruch commented that although some landowners are searching for acres to complete a pivot, other landowners might want to move acres to improve efficiency. Lundeen asked for a total of corrected acres and the associated depletion.

The board will hold a special board meeting at 10:30 on April 9, 2013 to discuss changes to the groundwater management rules and regulations.

Moved by Garrelts, seconded by Bilka to change the time of the April 9, 2013 Board of Directors from 7:30 pm to 1:30 pm and to hold a Special Board of Directors Meeting on the same day at 10:30 am. Motion carried.
